

ESSENTIA

DOUBLE

design ThesiaProgetti
2012

This bed summarizes simplicity, elegance and versatility, ideal for the "entry level". The innovative, resistant elastic fabric stretched over the headboard is as comfortable as the backrest of a chair.

Raised from the ground, the bed is available as a double-size or as a single bed.

The slatted support is incorporated in the steel tubular structure that terminates in stylish feet in the same colour as the cover fabrics – white, rope beige, aluminium, black.

On request, the bed can be supplied with a headboard fitted with Leds and with Leds that run along the border of the base.
