

## SAMA

design Cuno Frommherz  
2012

Outstanding style features characterize this important double-size bed: its clean lines were inspired by the Seventies and declined in a contemporary modern style.

The two versions available are equally suggestive: the first has lateral edges in Canaletto walnut (polished traditional or natural finish); these rise up to form the headboard and surround the fabric, leather or Ecopelle covers; the second is completely covered (including the lateral edges) in removable fabric, leather or Ecopelle.

The headboard of both versions can be completed with two gently arched panels, separate at the centre; these are upholstered with completely removable fabric, leather or Ecopelle.

The bed has an adjustable slatted mattress support and can be supplied with a storage base too.
