Light and minimalist coffee table, with a metal structure in the following finishes: anodic bronze, white, matt burnished, black, greige, magma and ocean. The oval top is supported by two slim central legs or by a single leg offset with respect to the centre of the table, which allows this version to be easily positioned next to a bed or a sofa. The stability is ensured by a wooden base coated like the structure. The raised edge of the top ensures items don't fall off.
