

LONDON BRIDGE

design Giulio Manzoni
2017

London Bridge is an ideal solution for a guest room or for people who have limited space available. It is a convertible “day-night” system that is extremely functional yet exudes the formal elegance that is often overlooked in this particular type of transformable furniture.

This practical wall unit includes a comfortable two-seater sofa, a full double-size bed and a large shelf with separate compartments (maximum load of 4 kg).

The wall unit is complete with a safe closure system and can be pulled down gently to rest on the sofa, revealing a bed (160x200 cm) that is “ready for use”. It is fitted with a slatted mattress support and a soft upholstered headboard with completely removable fabric or Ecopelle Dollaro covers.

Once the bed has been pulled-down, the shelf acts as the support foot, keeping the bed off the floor.

It is not necessary to remove any books or ornaments stored in its compartments.
