

OLIVIER SOFAS

design Emanuela Garbin - mario Dell'Orto
2015

This is a sofa in the most traditional meaning of the word designed to satisfy the changes in the universe of contemporary living, where the boundaries between the sleeping and living quarters are blurred. The sofa is large and spacious, extremely comfortable, with wonderful arrangement versatility, and it can join the small tables of the same collection.

The steel tubular frame has a matt burnished finish. Woven elastic belt support, coated in jersey fabric; the covers of the seating and backrest are available in fabric, leather or Ecopelle Dollaro.

Large back support cushions with covers that can be supplied in the fabrics of the Flou collection or alternately in the characteristic format in woven leather and a range of different-sized cushions add an extra decorative touch to these beautiful sofas.
