

GAUDÌ

design Matteo Nunziati
2020

The double-size bed Gaudí is a tribute to wood, a natural element par excellence. The headboard and footboard in solid wood, available in the finishes coffee-brown oak or black-stained oak, are the result of precious artisan processes; they create a sort of sinuous framework ready to receive the upholstery in fabric, leather or Ecopelle. The cover appears to simply rest on the frame, embracing the wood and following the natural shapes. In reality it is the fruit of a complex and highly detailed design study, to exalt the beauty of wood and give the bed a welcoming and exclusive appearance. The mattress support of Gaudí is with fixed slats with rigidity adjustment.
