

WALL UNIT PIAZZA DUOMO

design Giulio Manzoni
2017

Wall unit Piazza Duomo is for people who have limited space, yet are determined to satisfy their aesthetic and functional requirements thanks to the flexible and ductile properties of this furniture unit. It can be used during the daytime and at night. The 'day-side' has a comfortable two-seater sofa, with completely removable fabric covers, positioned beneath a large rectangular mirror embellished with beautiful polished chrome or matt bronzed trim. The 'night-time side' is revealed by pulling the handles on either side of the mirror to facilitate the 'easy-soft' appearance of a double-size bed that is 'ready for use'. The bed rests on the floor supported by two long feet. The bed is also easily returned to its original position: it is lifted, the feet slide back into the sides of the wall and the sofa and mirror reappear in the 'daytime wall unit'.
