

DOZE

design Rodolfo Dordoni
2014

Doze is a modular system to create various compositions of different size. The Doze system transports into the lounge the degree of comfort normally found in the bedroom.

The elements can be combined to produce a number of different arrangements – either linear or corner – to adapt perfectly to different spaces and ambiances.

Relaxation is guaranteed by the slatted base, the thick sprung padding and the transpiring fabric used in the Comfort line.

The seat and the backrest are softened with elegant quilting, topped with completely removable fabric, Ecopelle Dollaro leather or leather covers.

DOZE FLAT

design Rodolfo Dordoni
2015

Doze is a system of modular sofas, designed in 2014, expanded with the version Doze Flat in 2015.

The modular units can be combined to form linear compositions, corner units or with lateral extensions allowing it to adapt to a wide range of different-sized spaces and environments.

Compared to Doze, the differences in the new Flat version lie exclusively in the more compact size of the compositions, achieved by reducing the thickness of the armrests from 9.85" to 6.7" inches. The unusual feature of the Doze system is the extraordinary degree of comfort normally found in the bed, thanks to the slatted base, the luxurious padding with springs and the special layer of breathable fabric.
