

SOFTWING

design Carlo Colombo
2016

This is a double size bed that fully respects the tradition of the Flou textile bed. The strong point of Softwing is the fabric, draped over the frame and stitched like a haute couture garment.

The stylish lines are joined by the soft headboard with rounded corners, the elegance of the details, the position of the folds, the precision of the stitching. The end-result is a bed with extraordinarily comfortable softness, simple yet sophisticated elegance, the perfect tailor-made product. Softwing is available in the following versions: dismantable storage base with fixed slats and rigidity adjustment, dismantable base H25 with fixed slats and rigidity adjustment or with electric movements. Base and headboard with removable fabric, leather or Ecopelle Dollaro covers thanks to Velcro and zip fasteners.
