FIOCCO

SOFA
OUTDOOR
design Pinuccio Borgonovo
2023

Fiocco is a modular sofa of infinite potential, with elements that can be easily combined with each other. In addition to the traditional seats and chaise-longue, Fiocco's elements are offered in irregular or extra-large shapes that give the possibility of creating gently curved and articulated configurations or large islands of relaxation.

The generous cushions that serve as backrests or armrests can be chosen in different heights and are fixed to the bases by means of U-shaped curved metal supports: a functional and aesthetic expedient that contains them, highlighting their softness and great sensation of comfort.

Fiocco is made by using materials suitable for covered outdoor use: water-repellent canvas, properly treated metal parts and a devoted fabric collection in a wide range of textures and colours. Upholstery is fully removable.
