

FOGLIO

SMALL TABLE
design Pinuccio Borghonovo
2024

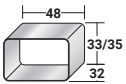

The Foglio coffee tables are made of a simple curved metal sheet with rounded edges and a hollow internal space that can be used as a table top. The dimensions are specifically designed not only to create centrepiece living room compositions but also to be inserted between the seating elements of the Fiocco modular sofa, breaking the continuity of the fabric and creating movement even in larger compositions. Available finishes: anodic bronze, matt burnished, matt white, matt black, matt greige, oxide, silver oxide and desert rock.
