

## GENTLEMAN

SIDEBOARD  
design Carlo Colombo  
2022

The sideboard Gentleman, thanks to its different versions (doors - doors and drawers - doors, one drawer and an open compartment), slides easily into any room of the house.

Thanks to the elegant lines, the quality materials and the skilled manufacture it fully expresses the true values of Made in Italy. Curved multilayer wood structure with an external cover in leather. The interior surface is ebony with a matt finish. Leather piping (same colour as the structure or contrasting leather). Top in ebony or marble; the front panels of the doors and the drawers are in leather, as well as the handles.
