SOMMIER MANDARINE

DOUBLE

design Emanuela Garbin - Mario Dell'Orto

2018

An elegant bed of oriental inspiration, ideal for both classical and modern environments. The base is characterized by corded horizontal stitching along the perimeter that breaks up the perception of its height: it sits 38 cm from the ground, two more than sommiers and traditional beds. The same decorative motif is repeated in the headboard and is positioned at 2/3 of the height. Mandarine is also available as a sommier, with no headboard; it can be embellished with drapes, paintings, curtains, and boiseries fixed to the wall behind it. Both versions of the bed are available with box-spring base Leonardo, storage or fixed base, an adjustable slatted mattress support, and feet in polished black nickel.
