

MOON

POUF

design Matteo Nunziati

2018

A series of circular poufs, characterised by eye-catching asymmetrical stitching. Available in three diametres (51, 81, 121 cm) with the option of covers in fabric or leather. The poufs can be accessorised with detachable trays with an anodic bronze, matt burnished, greige, black, white, oxide, silver oxide and desert rock finish. The half-moon shape of the trays perfectly complements the radius of curvature of the pouf and makes them suitable to be used as stable surfaces to place objects.
