

TOSHI

NIGHT TABLE
design Carlo Colombo
2025

Collection of accessories for the bedroom composed of a bedside table with two drawers, a chest of drawers and a tall chest of drawers with rounded shapes and essential lines.

The distinctive feature of all the elements are the polished metal rings (finishes: gold, black nickel or chrome) set into the surface and alternating with the drawers, creating an effect of depth and visual lightness.

The use of high-quality materials for the covering and the top, the absence of handles and the contrasting finishes enhance the purity and simplicity of the design. A slight flare of the top facilitates the containment of objects.

The collection is available with stained a lacquered structure, in coffee-ash, ebony or with a leather covering, while the top can be in marble or leather.

Toshi is a combination of aesthetics and practicality, designed for those who want an elegant and contemporary bedroom, where every detail is designed to guarantee beauty and comfort.
