

## ATELIERM

DOUBLE  
design Gino Moschetti  
2024

AtelierM is a double bed that fully reflects Flou's values of tailoring and manufacturing excellence, starting with the upholstered textile headboard whose soft linearity is interrupted by a vertical cut with a pleated effect.

But the detail that characterises it is undoubtedly the base with its minimal silhouette set in a folded sheet metal profile that leaves the corners visible and the Flou logo laser-etched on the front profile; a choice of materials that allows for multiple combinations between the textile upholstery and the finishes proposed for the metal.

Available with Leonardo base, H25 base with adjustable slats, container base with adjustable slats, Motion 4 base. Fully removable fabric or leather upholstery.

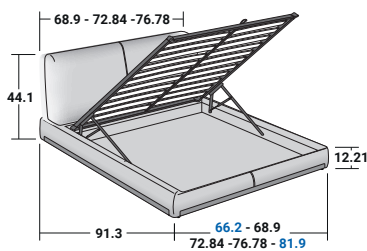

Metal base/foot in the following finishes: anodic bronze, matt burnished, matt white, matt black, matt greige, oxide, silver oxide, desert rock.
