

ELIA

DOUBLE

Design Matteo Nunziati

2025

Elia is a decidedly important bed that, in the rigour of its lines, reveals a careful study of proportions and the search for a perfect balance between the different material components.

The thick headboard is padded, covered in fabric and bordered on the sides by two wooden columns.

This decorative element is repeated on the four corners of the sommier and, by combining fabric and wood finishes, allows you to create original solutions of refined elegance.

Elia is available with the Leonardo base, fixed base, storage base, or Motion 4 base with electric movement.

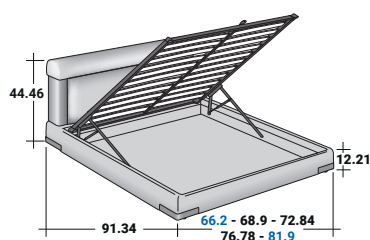

The final distinctive touch is the gold-plated Flou logo on the right front corner.
