

DILETTO

TRANSFORMABLE
design Pinuccio Borghonovo
2025

Diletto is a sofa/bed designed with comfort in mind and to offer a product with a fluid and organic shape in both modes of use, far from the rigidity that often characterises this type of furniture.

The backrest is divided into two independent parts, equipped with a manual mechanism that allows them to be adjusted to obtain two different seat depths, for a more or less informal use.

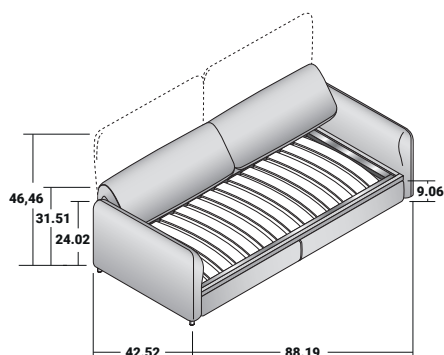

By completely raising the two backrests and removing the seat covering, a bed is obtained that is ready for use.

Diletto is also available in a version with a second bed stored under the base, which can be pulled out and lifted, thus turning the sofa into two comfortable beds.
