

YUNA

DOUBLE
design Carlo Colombo
2024

Yuna is part of Flou's range of important and decidedly contemporary textile beds, designed to become the centrepiece of elegant and refined bedrooms.

The generously upholstered headboard is composed of two overlapping horizontal panels that extend to the sides of the sommier with slightly different radii of curvature; a stylistic detail that lightens the overall vision and at the same time accentuates the sensation of welcome and comfort that the design wishes to convey.

Available with Leonardo H16 base, H25 base with adjustable slats, storage base and Motion 4 base. The base and the front part of the headboard are upholstered in fabric or leather with completely removable covers, while the back cover is not removable and is only available in leather or Greene coated fabric.
