

FIOCCO
SOFA
OUTDOOR
design Pinuccio Borgonovo
2023

Fiocco is a simple sofa in terms of its modularity and shapes: the elements can be combined easily and give a perception of full harmony with equally functional compositions from all sides. The seating elements are enriched by chaise-longue modules and the pentagonal module that allows, if properly inserted, to create soft and curved configurations.

The generous cushions, in two different heights, are either backs or arms and are connected by U-shaped curved metal supports: a functional and aesthetic solution that contains them, leaving as much space as possible for the textile component and highlighting the feeling of cosiness and comfort.

Fiocco is made by using materials suitable for covered outdoor use: water-repellent canvas, properly treated metal parts and a devoted fabric collection in a wide range of textures and colours. Upholstery is fully removable.
